MARINE PARK SOUTH

WWW.SEAWOLF-SAFARI.DE

The „early morning“ at the drop of with hammer-heads!

After arrival in Hurghada or Marsa Alam, transfer to the boat to Port Ghalib, dinner and departure the next morning.

The Marine Park South Tour starts from Port Ghalib – after 2 dives it goes directly to the south to Daedalus Reef. Even seen from far is the striking lighthouse of Daedalus. The reef extends over a length of more than 1.2 km. Drop off diving in the regular existing current and shark encounters mark the dives around Daedalus.

Now it goes on to the reefs of Zabargad and Rocky Island, the most southern islands in the Egyptian Red Sea. Countless soft and hard corals await the divers here in the Deep South.

On the way back we can visit the places of Sataya, Malahi, Abu Diab, Sha’ab Maksur, Sha’ab Claudia, Abu Galawa and Gota Sharm, so be assured of variety! Also here with great regularity can be shark encounters – only about half a dozen liveaboards run on these far southern reefs.

Before we return to the harbour in Port Ghalib, the Elphinstone Reef is another treat! The northern tip offers the best conditions to meet some hammerheads at an early morning dive.
